- Underreporting has gone as far as annual data is concerned. However, it warrants the need of some sorts of integration of Budgeting Information System with the monitoring system of IMED and ERD. In FY01 and FY02, CGA development expenditure is higher than IMED ADP expenditures as Development Expenditure > ADP by the amount of (Non-ADP FFW + Non-ADP Projects- Self-financing).

## c.2 Development Expenditure: Growth and Allocation Pattern

Table c.2 presents sector-wise growth and allocation pattern of Development Expenditure. It shows:

- ▶ While Revised Budget (RB02) for the FY02 was 14.4% less than the original budget (B02) and A02 was 4.6% less than RB02, B03 was 18.6% higher than RB02.

### d.2 Revenue Structure

tax structure of Bangladesh can be easily be seen from it. These are:

- Too much dependence on indirect taxes (only 12.7% from income tax, about 20% from all direct taxes including income tax)
- Biased towards external sector (about 40%) and susceptible to external shocks.

Data generated under the Budgeting Information System still underreports development expenditure and it seems there is some time lag between actual expenditure and imputing the same in the System. This seems to be true both for Revenue expenditure and development expenditure.

The major problematic areas are:

- In revenue expenditure, up to Feb.'03, about 11 (eleven) ministries/divisions show an utilization of revenue resources less than 50%: Parliament (38.8%), Election Commission (39.8%), IRD (24.6%), Planning Division (35.9%), CHT (1.0%), Defence Service (43.3%), Social welfare (41.3%), Women affairs (42.7%), Relief and Disaster Management (4.0%), Religious Affairs (29.0%), and Expatriate welfare (32.4%). In some cases, there are some programmed expenditure which has not yet been carried out (CHT) and in others, there may be underreporting or lag in reporting of expenditure again with regard to programmed expenditure involving food with in other ministries/divisions.
- Overall development expenditure remains unreported. It also a probability that development expenditure remains under-utilized up to the first half of the year resulting misutilization at the end of the FY. This needs to be addressed.

Data regarding 'Foreign Loan and Grants' may still remain underreported. This year's prospect of Foreign aid flow is also expected to fall short of the budget estimate, if Development Credit support from IDA is not forthcoming, as evident from the table shown below.
